 (2. b8D f1D zwart wint.....0,5)  
 2...f1~ pat!.....1,5

ad 2. b8D f1D zwart wint: er dreigt 3...Df8 mat. Wit kan dat alleen met 3. Db3+ verhinderen, maar na 3...Pxb3 wint zwart.

Ad 2. f1~ pat: ook zetten met de koning en looper leiden tot pat. Deze worden ook goed gerekend, mits pat.

Wil zwart winnen, bijvoorbeeld met 2...Pa6 dan wint wit nog (3. Kb7).
